TELEGRAMS TO STANDARD.

By direct cables via Lisbon.

Paris, 30th—The coal-mine owners at Carmeaux have accepted the conditions of the workmen, except the replacing in his post of M. Calvinhoe, who, by his propaganda, contributed to prolong the strike.

The miners are divided in opinion some wishing to return to work on the owners' terms, and others insisting that Calvinhoe be restored to his post.

Nevertheless, it is considered that the strike is virtually at an end.

Paris, 30th—Since Wednesday 26 fresh cases of cholera and 6 deaths, mostly in the suburbs.

Hamburg. 30th — Thirty-three fresh cases yesterday and 23 deaths, mostly of previous patients.

The falling off in the number of patients continues, and the speedy cessation of the epidemic is looked for. A little more animation in the city is apparent.

St. Petersburg, 30th—Yesterday 13 fresh cases and 9 deaths. In the provinces the virulence of the epidemic is declining everywhere, except in Astrakan.

London, 30th—A sensation has been caused here by the resolve of the Lancashire manufacturers to form a League to reduce wages. The men refuse to accept any reduction. It is feared that this will bring about a strike on a colossal scale.

Paris, 30th—Dr. Daremherg has published a condemnation of the celebration of the Centenary of the Republic, to which he attributes the recrudescence of cholera, owing to the enormous crowds assembled thereby.

Berlin, 30th—The German States have been consulted as to the military measures to be submitted to the Reichstag. Great reserve is maintained as to the reforms proposed, and the reasons for them.

London, 30th—The subsidy to the East African Company will be discontinued next year, so far as regards Uganda.

The Company will abandon the factories it has established there.

Paris, 30th—Hector Cremieux, the dramatic author, has committed suicide.

Trieste, 30th—The Tyrolean Diet has been opened without the Italian members, in spite of the efforts of the Bishop to induce them to attend.

The Italian Deputies have resolved not to attend the Diet until the Italian Tyrol is separated from the Austrian and has its own Legislature.

Some go so far as to ask that Italian must be declared the official tongue of the Tyrolean Diet.

Lyons, 30th The police have prohibited a Socialist Meeting, and made some arrests.

(Per Havas Agency.)

London, 30th– At a political banquet last night, Sir Charles Dilke declared that he would support Mr. Gladstone, whose policy was the best for the interests of the country. He also criticised bitterly the policy of Lord Salisbury.

Berlin, 30th—Herr Zelle, formerly syndic of Berlin, and influential member of the Progressist Party, has been elected Lord Mayor of this city.

London, 30th.—Alderman Knill, a Roman Catholic, has been elected Lord Mayor of London, and the press and the public in general have approved it.

(To the "Prensa".)

Newark (New Jersey), 29th.—At the annual meeting of the German Catholics here a resolution in favour of the temporal power of the Pope was passed.

Hamburg, 29th.—The cholera-inoculated correspondent of the *Herald* of New York is quite well, and his experiment is considered as quite successful.

New York, 29th.—There has been no suspicious case of cholera here now for a fortnight.

London, 29th—Baron Hirsch's Wingall won the Newmarket Handicap.

Twenty-three new stipendiary magistrates have been named in Ireland, all followers of McCarthy.

Hamburgh, 29th.—Only 44 fresh cases and 16 deaths yesterday.

THE FRENCH MAILS.

AWFUL RIOTS IN RUSSIA.

London, Sept. 2nd.

Thomas Neill, described as an American doctor, who is charged with poisoning several women, was further examined at Bow-street Police-court on Saturday, and after some further evidence he was committed for trial for the murder of one of the women.

The man Mank low, who is charged with the outrage upon two young ladies near Chislehurst, was before the magistrates at Bromley on Monday, but he was again remanded, neither of the young ladies being able to give evidence.

At the half-yearly meeting of the Manchester Ship Canal, held on Tuesday at Manchester, the Chairman (Lord Egerton of Tatton) said he had no doubt of the future of the undertaking, but a further sum of £1,500,000 would be required to complete the works.

The Marquis de Mores, son of the Duc de Vallombrosa, was tried at Paris, on Monday for the homicide of Captain Mayer, the four seconds in the duel being also indicted as accomplices. The Marquis was subjected to a long interrogatory, in the course of which he stated that he was 34 years of age, that he served for five years in the Dragoons that on leaving the army he married an American lady at Cannes, and that he went to America. There he busied himself with railways, agriculture, and cattle breeding, in which he was unfortunate.

The result of the trial was an acquittal, as expected.

The riot at Hughesofka, the town of about 20,000, inhabitants which has sprung up close to the mills of the New Russia Company, created by the late Mr. John Hughes, was the worst that has occurred anywhere in Russia since the outbreak of cholera, 20 Cossacks being killed and ten wounded. The handful of Cossacks on the spot were quite incapable of making any impression on the mass of rioters, who numbered over a thousand, and, although they were fired upon several times, the burning of the bazaars and kabaks, or drink shops, went on until the arrival of more troops. These reinforcements arrived only about 48 hours after the beginning of the riot, during which interval the rioters had it all their own way. Hard drinkers having probably caught cholera, the cry was raised that the Jews had poisoned the "vodka," so that the violence directed solely against the doctors in the other recent riots was in this case turned entirely against the Jews and those supposed to be Jews. About 24 bodies of workmen have been found amid the wreckage and also seven bodies burnt. Many families have run out on to the steppe. Such was the panic that one English woman who escaped to the open steppe died there of fright, surrounded by her children. All the shops and the two bazaars in the town were broken into, plundered, and in many cases burnt. Happily none of the many Englishmen with their families resident at the mills were actually attacked or injured.

President Harrison, addressing a large meeting of citizens at Malone, New York State, on Friday, said :—

"We are favoured as a nation in the great isolation we enjoy, free from the dangers of close contact with any of the great military Powers of the world. Canada does not threaten us, nor do we her; we desire for Canada abundant prosperity, but it must not be supposed that our freedom from close contact with great Powers that are for ever standing on the edge of war has not left us duties and responsibilities. We have always in our diplomacy exercised patience and reserve with the strength and consciousness of a right cause. I fancy that we are now entering upon a career when our external influence in commerce will be larger than ever. We must resume our former place in the ocean carrying trade of the world. Our wise and timely inauguration of a new navy shows the capacity of our shipyards to produce the best ships in the world. I believe that we have seen the last serious outbreak against the supremacy of our Constitution. Slavery has been abolished for ever, and Lincoln's proclamation has now the assent of the South itself."

M. Guillois, the French Consul at Damascus, while recently proceeding from Beyrouth to Diarbekir, was attacked and robbed by brigands between Beyrout and Aleppo. Owing to the repeated representations, made by M. Cambon, the French Ambassador, M. Guillois has now obtained satisfaction from the Porte in the form of an indemnity of 25,000f. and the recall of the Kaimakan of the district in which the outrage was committed,

It is reported from Beyrout that M. Arbin, a Frenchman, who is director of the Beyrout Gas Company, has been assassinated in the open street by a band of Arabs.

Paris, Sept. 27th—An official despatch from Dahomey states that Col. Dodds has ascended the Nemé as far as Kodo. The enemy have totally abandoned Porto Novo Territory and are now concentrated at Allada.

The Italian Government have given a sharp denial to the report that cholera had broken out in the island of Cyprus.

The Czar and Czarina have visited the cholera-hospitals in St. Petersburg.

Semi-official advices go to shew that the new British Ministry will not tackle the Egyptian question, which will remain in "statu quo."

The Health authorities of Marseilles have decided not to allow any Russian Jewish immigrants to land.

NOW MUCH CAN THE ARENTINES PAY

(From the "Financial Times.")

Though it may be too early to initiate negotiations with the Argentine Government, it is not too early for the bondholders to take counsel among themselves and have a basis prepared for future action. The first requisite is full and authentic information as to the actual liabilities and resources of the Argentine Republic. Under the strong control of the present Finance Minister, Mr. Hansen, the condition of the Treasury has materially improved and is still improving. For the first time an honest attempt is being made to check the inflation of the currency and to avoid the creation of new debt. The Treasury reports have become more intelligible, and some reliance can at last be placed on official figures. And now, by the mail just in from Buenos Ayres, comes the text of the Budget for 1893, presented to Congress by Mr. Hansen, which shows an estimated surplus of sixteen million dollars currency on the basis of the gold premium averaging 175 per cent.—a calculation that is sanguine enough at all events.

This is very satisfactory so far as it goes, but for the purpose of the important negotiations in view something more will be needed. There will have to be, as in the case of the Uruguayan reorganization, a very strict and thorough investigation of the public accounts made on the spot. The President-elect may have had this necessity in view when he suggested the appointment of an impartial Commission to examine into the "resources of Argentina." He does not indicate how such a Commission should be constituted, but the bondholders would have a prima-facie claim to be adequately represented on it. A British, a French and a German delegate might soon be selected by their respective groups. Then the Argentine Government would also be entitled to take part in the investigation, either through one of its officials or through some local financier having the full confidence of his fellow citizens. Such a man as Señor Romero, the Finance Minister of General Roca's Administration, and a politician esteemed by all parties, would be eminently fitted for the office

The proposed Commission ought to have a distinctly international character, added to which there should also be, if possible, some diplomatic prestige.

This representative Commission ought to be in Buenos Ayres ready to start work as soon as the new Government is fully constituted. That will be in October next, and there is consequently not too much time left for preparation. Two or three months will have to be allowed them to complete their investigation and to frame a compromise scheme to be submitted to the bondholders. They will have three distinct and successive stages to go through —first, the investigation proper; second, negotiations with the Argentine Government; and, third, obtaining the consent of the bondholders. When the basis of a compromise has been arranged with the Argentine Government a dozen or more different classes of creditors will come forward with conflicting claims to reconcile. The bondholders alone represent so many varied interests that it may take months of negotiation to adjust them all satisfactorily.

At this early stage there can be no very definite or practical discussion of the Argentine problem. The most that can be done is to endeavour to forecast roughly the financial situation, which the Commission of Inquiry may be expected to make a thorough disclosure of. According to the best information at present available, the National liabilities with the corresponding annual charges may be thus summarised :—

	Sum.	Annual charge.
	£	£
Sterling Loans....	25,697,350	1,627,026
German Loan....	2,058,200	123,500
Waterworks Loan	6,600,000	396,000
Funded........	34,355,550	2,146,526
Morgan Loan 1886	7,865,790	505,696
Guaranteed Banks	18,738,684	843,240
Harbour	1,500,000	82,500
Funded Coupons..	4,000,600	240,000
Not funded.......	32,104,474	1,671,436
Total......	66,460,024	3,817,962
Internal Currency Loan.........	$55,324,335	$4,135,460

There are besides, indirect liabilities on account of railway guarantees, which may be estimated at from £800,000 to £900,000 per annum. The total charge, direct and indirect, which the Republic might be called on to meet in order to maintain its solvency is nearly five and a-half millions sterling. Taking gold at the current premium of 226, that would be equivalent to nearly $90,000,000 currency—an impossible burden for the country to bear as now situated.

The Budget estimate is that the Argentine revenue of the current year will amount to ninety-one million dollars currency, worked out on the basis of a decline of fifty points. The administrative expenditure of the year is estimated at $44,000,00, but great economies are promised by the President-elect. If he can redeem his pledges to the very moderate extent of a few million dollars, the domestic expenditure of the country will then be forty million dollars a-year, and fifty-one million dollars would be available for the service of the debt. But the bondholders would not demand the last ounce of flesh. If the Argentine Government were to say to them: "Let us divide the National revenue equally between us. You take forty-five million dollars a year and risk the exchange, and with the other forty-five millions we undertake to carry on the public administration," the offer would be worth accepting. At all events it is satisfactory to have such an assurance as the present state of revenue affords, that the Republic, if it cannot pay the full 20s. in the pound, is able to offer a substantial composition.

LATEST FROM MONTEVIDEO.

Friday Evening

The report that the Health Board were about to resign "en masse" in view of the hostile attitude of their Argentine colleagues is not confirmed.

A fire occurred last evening in Cerri's furniture shop in Calle Ituzaingo. Although the Fire-Brigade succeeded in extinguishing the fire, the losses are heavy.

Amongst the passengers arrived by the French steamer La Plata, and at present undergoing quarantine on Flores Island, are Messrs. Pedro Casavarilla, Bullrich and family, Agustin Castro, and Justino Buela.

The question pending between the Hypothecary Bank and the Banco Popular will perhaps be laid before the Legislature.

It is reported that a strong syndicate has been formed on the Bolsa to "bear" Cedulas.

Yesterday a sale of land in Soriano was effected at the rate of $5·10 per square; another sale in the same department is reported at $4 per square (4 acres). The official valuation for Contribucion Directa is 9 dollars per hectare (2¼ acres).

Advices from the country report drought. Cattle are in very poor condition.

PROVINCIAL NEWS.

Our esteemed and invaluable exchange, the *Dia* of La Plata, contains an interesting correspondence from General Guido, which we take the liberty of summarizing as follows for the benefit of our readers:—This is a go-ahead place, but the people are in danger of being swept away by the waters of the Lake Mirador, which is at present in a very swollen condition. There is excellent fish in this lake as well as in the smaller ones of Caquel and Los Leones. A thriving trade is done in fish. The same cannot be said of meat, for the Municipality has granted a monopoly to one man for the sale of meat for local consumption. There is a daily service of diligences to Tuyu and Ajó, and the roads are in good condition. There is one peculiar feature about this town, to which the attention of the Governor of the Province should be drawn. There is no cemetery in the place, and as the inhabitants cannot very well lay claim to immortality, it is evident that this want must be soon supplied. It is all very fine for wealthy people; when they die, we all know where they go: they are sent to Dolores or Maipu for interment. But the poor man does not leave money to have his body conveyed to distant towns for burial.... There have been serious inundations about here. A flock of 1100 sheep on the Quinua Estancia was drowned, and similar losses are reported from Castelli and Dolores. From Velasquez to Maipu the railway was under water. The camp looked like an immense lake.

His Grace, the Archbishop of Buenos Ayres, arrived in Cordoba on Thursday morning with a numerous party of ecclesiastical dignitaries. Cordoba is overflowing with visitors from all parts of the republic. The ceremony of the Coronation of Our Lady takes place to-day.

The locusts continue to ravage the Santa Fe colonies. Yesterday's advices from Rosario state that the voracious insects have invaded the colonies of Tunas, San Agustin, Progreso, Cavour and Rivadavia. The plantations in Sunchales are now bare.

We note in a Rosario exchange that the new real estate valuation for the purposes of Contribucion Directa comes into force from to-day.

WATER SUPPLY.

In January of this year I presented to the President of the Water-works Committee a project of water supply for this city. From that date to the present I have heard nothing more about the proposal.

These subjects have occupied my attention more than 20 years, and I find that to-day, as 20 years ago, we are without any effective sewerage system or a constant and sufficient supply of properly filtered water. The present supply is notoriously inadequate for the wants of the present population, say 500,000 inhabitants, which, at 40 gallons per head, would require 20,000,000 gallons per day, whereas the works at present are only capable of supplying 4,000,000 gallons. Moreover, the supply is not constant or of sufficient pressure, while the colour and taste of the water are anything but good, and possibly it is dangerous to drink.

This state of things cannot go on. The hot summer months will soon be upon us, and we have neither engine-power nor reservoir surface sufficient. Even when the two new engines and pumps are finished, the four combined will only lift 8,000,000 gallons per day (see page 21, Report). All persons must be fully aware of the very great waste of filtered water that is now taking place also for watering streets and gardens, as well as for flushing the sewers, water-closets, slaughter-houses, coach-yards, laundries &c.

My principle object is to point out the urgent necessity of taking immediate steps to alter this error. I propose to give Buenos Ayres a complete separate supply of pure, filtered and softened water, clear, bright and almost all organic matter removed.

1st. I propose using the old service pipes and the old Reservoir in the Plaza Lorea.

2nd. I should connect every house with a ½ service pipe, only one to each house, and each house would be supplied with a proper meter that would correctly register the quantity of water used per month.

3rd. I should allow each inhabitant 5 gallons daily. If any water run to waste the householders would have the more to pay, being as per meter.

4th. Government Inspectors to take the register of the meters at stated periods.

5th. A general meter to be fixed by the Company, and the Government to pay for the water as per register delivered into the Lorea tank.

6th. This filtered water to be only for drinking or cooking, and not supplied to boilers, water-closets or other purposes.

7th The tenant to be at liberty to buy the meter, or else pay 5$ currency per annum.

8th. The filtered water to be supplied to Government at 1$ for 20,000 gallons, and the Govenment to charge suitable rates to the publie and collect same.

9th. The Co. to hold a concession on the above terms for 20 years.

With the system which I propose it is found at Edge Hill, Liverpool, that one man can filter, purify and soften 180,000 gallons of water daily.

I think you will agree with me that the Government ought to grant without delay a concession such as I solicit, since it will not cost them a dollar. The present costly system of passing River Plate water though Montevidean sand gives us a very turbid, dirt-looking liquid.

ENGLISH LITERARY SOCIETY.

The debate on Evolution was resumed on Wednesday night by Mr. Hutton, who, while complimenting Mr. Penningtion upon his admirable lecture, declared that the arguments were not conclusive in favour of the theory. Dr. Hiron had dealt with Embryology, and from Palæontology very little evidence had been adduced. As regards the myocene horse and the palæotherium with three toes, they proved that, contrary to the theory of evolution, the horse had degenerated, for a horse with toes would have a better grip of the ground than one with hoofs. (So with the lizards, those with wings and teeth ought to have been the fittest to survive, instead of having degenerated into crawling crocodiles and billed birds. He had been taunted with asking for the "missing link," but Huxley himself had admitted the necessity of its production in order to establish the theory. The Dakota region of North America is 4,000 or 5,000 miles in length and 60 to 100 miles in breadth and is a perfect mine of fossils, which are admitted to be at least five millions of years old, but the species found are as perfect types as similar species now existing and a greater variety of species has been found in that region than on all the Atlantic coast of North America.

Sir William Thomson and Tate have proved that the earth has not been fit for organic life more than ten or fifteen millions of years, while Darwin had admitted that 300 millions of years were required for the evolutionary process. (Mr. Hutton could not find any such statement in Darwin's works, but he quoted from another work a statement that Darwin and other evolutionists had made this admission. He also quoted passages from Tate's work on "Fossil Man" to prove that Man has made no progress in physical structure.)

The Rev. Pelham Ogle, President of the Society, suggested that disintegration is itself evolution and he also pointed out that in many cases supposed gaps in science have been subsequently filled up and that, therefore, the absence of a link from the chain of evidence is not conclusive proof of the erroneousness of the theory of evolution.

Mr. Graham said that Sir William Thomson himself is a Drawinian and so is Professor Helmholz. In fact, evolution is now generally accepted by scientists. There is no indication of purpose in Nature, and there is a growing belief in the non-existence of any outside influence.

Mr. Ely said that evolution means change and this is still going on.

Mr. Inglish quoted from a Russian work to prove that the "missing link" had been found, and he said that the superior ape was very similar to man. As for the time required for evolution he pointed out what is done by the coral insect.

Mr. Dinneen preferred the statements of the bible to those of second-hand scientists.

Mr. Monteith Drysdale said that Evolution was a reasonable hyphothesis but that it was not proved.

Dr. Hiron reiterated his argument that life is only produced from life

Mr. Pennington, in reply, said that his opponents differed among themselves and did not advance any theory in opposition to evolution. He then described minutely the progress of the embryo, in order to show that at first there is no difference in the various species. As to fixing the age of the world, it is mere speculation. The horse has progressed, not degenerated. Birds and lizards are the ends of two chains which at one time crossed each other. Pigeons, now distinct species, are all descended from the blue rock pigeon. Evolution shows unity of purpose. The missing link between man and the lower animals has not been found, but analogy requires us to accept evolution if no better reason for the formation of species can be found. He declared that he had never denied the existence of God and he accepted the Mosaic account of the creation.

The usual vote of thanks brought an interesting meeting to a close.—*Herald.*

CHILE.

THE REDEMPTION OF THE PAPER MONEY.

About a fortnight or so ago the prospect for the Bill for the Redemption of the Paper Money was not at all promising. Happily, however, it was resolved to prolong the session of Congress, and the Bill is now in a fair way of becoming law within a short time. At the sitting of this day week the first clause passed by 33 to 10. There were five amendments proposed, but three were rejected and two were withdrawn. The clause as agreed to reads as follows: "The issue of Bonds to bear the date of January the first 1893, and to bear interest at the rate of six per cent per annum and with a cumulative sinking fund of one per cent per annum, for the sum of £1,200,000, the service of which will be made in Santiago, Paris, London or Berlin at the option of the holders, is hereby authorised. This loan may not be totally paid nor the sinking fund increased during the first five years after the issue of the bonds." At Monday's sitting the second clause was brought forward and it underwent a modification. As amended it reads thus: "The offers for these Bonds shall be made by sealed tenders at not less than ten dollars in paper for each pound sterling of capital and interest for the half-year. Tenders shall be called for £50,000 monthly commencing with January 1893."

At Tuesday's sitting the third clause was brought forward. It was amended by the Committee and passed in the following shape: "The Paper Money acquired by means of these issues shall be incinerated to the amount of ten millions of dollars. The remainder shall be applied to the purchase of gold and silver for the coinage of money in conformity with the provisions of this law." The fourth clause which reads as follows was passed without debate by 30 to 8: "Within the first half of 1894 three millions of Paper Money shall be incinerated, and there shall be put in circulation an equal amount of gold money of twenty four pence, if the mean of foreign exchange should not have fallen below twenty-three and a half pence during the preceding six months." The fifth clause passed without debate by 29 to 8, and it reads as follows:—"Under the same conditions Paper Money shall be incinerated, and there shall be put in circulation gold money of the value of five millions of dollars in the second half of 1894 and in each half of 1895." The sixth clause was also passed without debate by 20 to 8, and is as follows: "The incinerations of paper and its replacement by gold money which may not have taken place in those half years in consequence of the requisite men[illegible] in clauses four and five not having been complied with, shall take place in the half-year in which that requisite has been fulfilled." The seventh and eight clauses were brought forward and were ordered to be held over for subsequent consideration. Clause nine was then brought forward, but the debate on it was not concluded when the hour for adjournment arrived. At Wednesday's sitting clauses seven and eight were agreed to in the following form: 'Clause 7. From and after December 31st, 1895, the Government Paper Money shall be paid on presentation in the Treasury, in silver coins of twenty-five grams weight and nine tenths fine, or their equivalent in gold." "Clause 8. From July 1st, 1896, the Government Paper Money shall cease to be legal tender."

The ninth and tenth clauses passed yesterday. The former provides that in 1893, twenty-five per cent of import duties and in 1894 and 1895, fifty per cent shall be paid in pounds sterling calculated at 6 dol. 31 cents, or the equivalent in Chilian gold money. The portion of the duties thus paid will be exempt from surcharge. The latter clause provides for the sale of the silver reserve and the conversion of the proceeds into gold money.—*The Chilian Times.*

WHAT CORNER?

Mr. Editor,

A friend of mine in the "old country", to whom I very often send the STANDARD, writes to me to be good enough to tell him what is meant by "turning the corner"—an expression which he finds repeated in your columns eight times since April last. Now, as I know it has occurred more than once again within the last two months—which he will also certainly note—I should be glad if you would tell me what this "corner" is that you refer to so often. I confess I don't know, but of course you do; and I should be glad to be able to send my friend a solution to what appears to both him and myself a riddle.

Yours respectfully,
J. W. W.

RAILWAY ITEMS.

The N. R. Board have proposed certain changes in the staff and salaries of some of the Central Northern Extensions. We note that the salary of the manager is put down at 850 dollars per month.

The cost of stamps and postage involved in paying the brokerage and service on the 1st series of the Central Northern Extension Loan amounts to no less than £21,294.

CONGRESS.

THE DEPUTIES.

At 2 30 the House met.

The Executive sent a Message about agricultural schools, and another asking for two millions of shinplasters to finish the blessed Boulevard.

Dr. Figueroa moved that the Executive be asked to explain before 5 p.m. its intentions as to an extra session The answer came quickly, and was to the effect that the Executive did not consider it expedient to extend the present session, but would summon the Legislature for an extraordinary session at the proper time.

The House went into "cuarto intermedio" to give the Committee on Constitutional Affairs time to report on this.

The Committee reported at 6.45 p.m. advising the sanction of the following resolution:—

"Art. 1—This House resolves, to continue sitting until the Budget be voted."

Deputy Magnasco "informed;" and, after a long debate, the House threw out the report of the Committee, and rose at 9.30 p.m.

EDITOR'S TABLE.

Dame Rumour paid a round of visits yesterday and gabbled away about lots of things. She says the President-elect is going to issue a manifesto to the people.

Early birds who were out looking for worms yesterday morning at 5 a.m. got wet as there was a slight shower of rain; but, unfortunately for the camp, Phœbus drove away the clouds. Rain is terribly wanted in all parts of the country.

We are requested to say that the publication of the October number of the "St. John's Church Magazine" is postponed for a few days, in order to announce the present condition of the Organ Fund. The amount collected at the Organ Recital was $652.

The auction of the 'Granja la Marucha' will be held at Mar del Plata to-morrow, Sunday, and Monday, the 3rd inst., by Messrs. Collet and Llambi. A sale will take place of all the appurtenances of this important agricultural and farming establishment; and for the convenience of those wishing to assist at the auction (as it is anticipated that a great number of people are interested and will be present), a special train will leave Plaza Constitucion to-night at 10 p.m., returning on Monday night. The tickets for this train will be on sale at the General Railway Agency of Messrs. Horrocks and Fulford, Calle San Martin 185, up to 6 p.m. to-day

The Marenco wine factory was still burning yesterday morning.

Mrs. Oldham and family, who have been on a visit here for a week, leave this evening for Montevideo.

Colonel Goldsmidt, who has arrived back from Santa Fé, was welcomed on 'Change. He visited Mr. Kemmis's famed estancia and saw all his horses, which he considers the finest in the country. We regret to say that one of the horses ran away with Mrs. Goldsmidt, but she held him bravely, and the horse was brought to a stand before he reached the wires.

Government has ordered $20,000 to be given to the Government of Entre Rios to help it to extinguish the Locusts.

They had a half million of dollars fire in Rio the other day: a candle factory and six houses alongside.

In reply to "Man in the Stalls" we beg to say that "Ours" will come off in the last week of October or first of November, with some of the best amateurs in town on the boards, for the benefit of the Boys' Orphanage. By the way, we hope the Opera House will be secured for the occasion; the Odeon is quite too small.

The Vienna police are perhaps right in supposing that Smeridis was Jack the Ripper, He began his murders by killing a woman of loose character in Buenos Ayres. The London police always asserted that Jack the Ripper was a foreigner, and that he was either a butcher or surgeon. It may be observed that in Buenos Ayres he was alternately barber and quack doctor. His release from prison here was a year or two before the first Whitechapel murders.

On Thursday evening the ladies of the St. Vincent de Paul Society of Almagro gave a charity concert in aid of the poor of San Carlos. The concert hall was decorated with flowers and choice plants. Messrs. Meyer, Amespil and Martin were stewards. The ladies and gentlemen were all in evening dress, and the hall looked to great advantage, and was crowded, as we may safely say, with the elite of Caballito and Almagro. The programme was excellent and was ably executed. Professor Ubertone on the the 'mandolin' distinguished himself, also Sr. Farino on the violincello and the little boy Drangosh, who is a veritable Thalberg. Miss Amespil, who accompanied the artists on the piano, is an artist herself. We hope the St. Vincent de Paul Society will continue their concerts, as the families of Caballito all say they never passed a more enjoyable evening, a very pleasant way of giving charity.

An entertainment is to be given on the 11th of October in Lomas by the children of the Lomas Academy in aid of the Building Fund of the Church. There is still wanting to meet the expenses of the additions to the church, now nearly complete, the sum of $1,700, and it is with a view to raising a part at least of the money that the children, assisted by some of their elder friends, are making this effort. The children's play is to be "My Turn Next," and the farce "Bubbles" will be given afterwards by some well-known amateurs, among whose names we have heard mentioned Professor Martin and Mr. F. Handcock. A further notice will shortly be published, giving more particulars.

The following are the big prizes drawn in the Agentes de la Capital Lottery yesterday:—

8329, 10,000; 10472, 500; 13785, 7975, each 200; 5133, 8994, 2616, 7181, 3109, 7810, 1624, 4299, each 100.

We thank Messrs. Galli Brothers for late English papers.

The 18-minutes cablegram from London yesterday announced a change of weather from fine to showery. Everybody in the Plate is sighing for a big shower or two, as the dreary drought is spreading in all directions.

Among the unique exhibits which are in preparation for Chicago is a dress of deerskins, made by a Sioux squaw and richly embroidered with sixteen pounds weight of beads. She has been two years at work on this garment. San Bernardo County is arranging to erect a palace of native salt in the grounds of the Fair. Blocks of crystallised salt measuring twelve inches square will be used. These, being transparent, will have a very fine effect. A Boston man has applied for leave to exhibit a skycicle, or wheeled flying-machine. The Pennsylvania exhibit includes 150,000 butterflies, said to be the finest collection in the world.

Our Montevidean Anglican friends had a Sunday Observancen meeting on Tuesday at which Canon Pinchard spoke with his usual brilliant eloquence After some discussion it was resolved to form a League to promote on Sunday "tres cosas buenas": worship, rest and recreation.

We are sorry to see that grapy Mendoza is in the hard-ups again, so much so that, although there are no Locusts in the province, the National Government has been asked to fork out some Extinction money in advance. Eight business houses have gone to the wall, and the National and Mortgage Banks are "executing" their debtors in hundreds, and selling properties right and left, for a song. Poor Mendoza.

We received a telegram from Nowhere yesterday announcing that the Editorial Bus will pull up to-day to take in another passenger, *Las Novedades,* which will be the best informed paper under the Argentine sun.

That deservedly popular actress Antonia Saganelles will take her benefit in the Comedia Theatre on Monday next, and we trust the public will fill her purse. The programme is most attractive, including "The Women who Kill" and "No more Fathers-in-law."

Archbishop Aneiros, Bishop Soler of Montevideo and all their distinguished fellow travellers received a tremendous ovation on their arrival in Cordoba. They all looked a trifle fatigued, as the engine got tired and the train was four hours late. The Bishops of Cuyo, Salta and Mendoza, and an enormous number of clergymen from all parts of the republic have also arrived in the doctoral city.

The *Montreal Gazette* is pretty right when it says that rarely has a name been so transformed, to the undoing of its meaning, as when the English newcomers changed Cap d'Espoir into Cape Despair!

The Locust news yesterday made us cry. In Rosario they say the wheat crop is dished and done for if it does n't rain. All the colonies are now invaded. At Calchaqui on Thursday they had a cloud of the insects five leagues long by two broad.

We call the attention of the Chief of Police to the unpleasant fact that nightly robberies at Almagro and Caballito are increasing at a rate most unpleasant for the people plundered. The thieves carry off all kinds of small things left in outhouses and "patios," but rarely break into the dwelling house, which is very considerate on their part.

The Quilmes Polo Club sent down last night a team to play against the Lezama Polo Club at Las Barrancas Estancia. This is the first time, we believe, that a regular polo match has been played in the Southern camps, and no doubt it will excite a great deal of interest in the neighbourhood. The team which go to represent Quilmes are as follows:—No. 1, F. Bethel; 2, F. Pettigrew; 3, A. M. Hudson; back, T. Murray.

We beg to thank Doctor Elvira Rawson de Dellepiane for sending us her thesis "Higiene de la Muger," and to congratulate her on her brilliant examination in taking out her medical degree.

A man in the audience at a "café chantant" in Calle Corrientes fell dead in the middle of the performance on Thursday evening.

Otello and the Black Devil (Black devils both) at the Politeama to-night. The spirited empresa has got the remains of the Bernis and Pome companies together and intends to give opera and ballet judiciously mixed, a combination that will certainly fetch the public.

We hear that Cupid and Hymen have a lot of work on hand just now in English-speaking circles, so the following hint may be of use to those whom it may concern. At a wedding that took place at Toorak, the fashionable suburb of Melbourne, a very large floral marriage bell was suspended over the reading desk, surmounted by the initials of the bride and bridegroom, carried out in the choicest white exotics. Floral arches spanned the aisles, and the whole church was profusely adorned with flowers.

Lots of people say that if the Rowing Club's Regatta fixed for November 11th could possibly be held in or near the port, the public at large would like it better than having to go to the Tigre, no matter how cheap the fares, how fine the day, or what 'thoroughly nice people' they might meet in the cars there and back.

Hurrah! The Lord Mayor and the Wise Men are engaged in another fight, with the Minister of the Interior as umpire. It is all about health inspection of houses, and we fear there is not much fun to be got out of it for the public. The Lord Mayor accuses the Wise Men of thinking more of electioneering than the welfare of the city. That's about the English of it.

The only society in Europe for the promotion of the study of the English language, that at Berlin, has burst up. It was under the patronage of the Empress Frederick, and the presidency of the Prince of Hohenlohe Langenburg and the vice-presidency of Prof. von Gneist; and the eminent philologist and politician, Prof. Dr. Carl Abel, was secretary. It gave way to the German Colonial Society.

Doctors are not usually very pugnacious, yet when they take the public health in hands they can never agree. The H.B. and A.P. here are generally squabbling either between themselves or with their colleagues in Rio and Montevideo, and now the Health Board and Council of Health in the latter city have had such a row that the latter threaten to resign "en masse."

We learn upon the authority of a North American exchange, that "Queen Victoria has taken to wearing the divided skirt, and the loyal cablegrams say that she rather enjoys them or it, or whatever you call them." The *Chicago Mail* editor remarks that he has always preferred something of the sort and is glad to have her Majesty's endorsement, and we are surethat our masculine readers will hesitate no longer but go in bravely, one and all, for the nocturnal equivalent in male attire, namely, the improved pyjama suits which can only, and most appositely, be obtained at "The English." When they are buying these, they can also replenish their stock of every description, all of the highest quality and at most moderate prices.

ON 'CHANGE.

Friday, Sept. 30th 1892.

This being settlement day, the gold requirements were above the average and the gold premium rose in spite of the expectations of the majority who calculated upon a headlong fall. The current of the speculation from the beginning of the month has been in the direction of a fall, in spite of all the revolutionary rumors, and now that the monthly liquidation is at hand it must be confessed that the market at large has been defeated, since the premium has kept steady at $53 to the ounce and above. But for this universal tendency in the market to favor a fall in the gold premium prices would have risen like a rocket when the Santa Catalina conspiracy was discovered. Many affect to believe that this conspiracy is a myth and a farce, but the few who know the "coulisses" of the political situation maintain that the plot was checked merely for the purpose of showing that the new government can rely upon order as long as it rules within certain lines. It is understood that the dissatisfaction that is rampant must sooner or later culminate in something more serious than an abortive conspiracy, unless the Saenz-Peña government adopt a policy different to that foreshadowed in the formation of the prospective Cabinet.

The market is still on the "qui vive," as if in the immediate neighborhood of the Santa Catalina encampment; and but for this bug-bear the mighty current of the bearish speculation would carry everything before it. The market believes that the country is on the eve of great reform and that a great improvement must take place; the only danger is that the new Government may play into the hands of the very party that was upset in August 1890, and that all the efforts since that date to emancipate the country from that thraldom may prove negative. Meantime, it is announced on the very best authority that the Cabinet announced a fortnight ago as the new Saenz Peña Government will be maintained intact.

Over twenty four thousand ounces changed hands at the first ring: the price opened at $53 and closed at $53.20, say 226.88 % premium, or twenty cents higher than the price of ounces last night. A few hundred sovereigns were sold at $16.44 and $16.47, say 227 % premium. The demand for the precious metal was very heavy all morning, and it was also remarked that a hardening tendency was rampant in exchange. The settlement is expected to come off smoothly, as differences this month do not amount to much and time-bargains are now on a very small scale, limited to the requirements of the big merchant firms. Brokers report speculation in time bargains at its lowest ebb for the last two months.

As an index of the march of the gold market the following tabular statement of the closing price of ounces and gold premium after the first ring daily will be read with interest.

Patriotic Bonds ruled firm as a rock at 74½, and the general impression is that in view of the cheapness of money the stock will rise several points higher. Internal Bonds, meantime, ruled very weak: they opened as low as 67, rose, and closed at 67.40: the rate for the end of next month closed at 66½. Thus, strange to say, these twins of speculative investment do not agree: the one rises and the other falls; yet the Internal bond at present prices gives a much better interest than the Patriotic bond.

Catalinas opened in a fainting mood: the first shock was the publicity given to the ins and outs of the repeal of the contract concession for ground at the docks: few were aware of the facts of the case and the stock began to shrink immediately. Twelve thousand shares changed hands: the price for cash opened at 10, fell headlong to 9.50, rose, and closed at 9 90. The price for the end of the month opened at 9.90 and closed at 10.20. It is to be hoped that the market has got at the end of the unfavorable news about this company, which deserves a better fate.

Municipal Consols were dull and weak at 58.10. Spanish Bank shares closed at $107. La Plata Cedulas continued very firm at 30.40 and 30.50.

The exchange market continued firm and slightly stronger than yesterday: rates were nominal at yesterday's quotations. Discounts continued very easy.

The Land Office has sent to the Government for approval the surveys of the land concession of Mr. Henry Hollman in the Neuquen territory, carried out by surveyor E. Geber.

The Compañia Telegrafico-Telefonica has laid a protest before Government against the application of the Central & South American Cable Co., on a plea that the proposal of the former is more favourable to the Nation.

Circulars were received from Rosario de Santa Fé to-day announcing the re-opening of the old established house up there of F. Fredriksson & Co., as steamship agents and general commission agents. Thirty years ago this firm did a roaring business in Rosario, and we hope to see it doing the same now, although things in the commission line have changed monstrously since then.

Messrs. Eastman & Kenny announce their first auction at the well-known estancia of the late Mr. John Brown, of La Chosa, Lujan, on the 16th October. We all know La Chosa and the sound, excellent stock bred on the land. The auction is sure to be a great success, and we congratulate the new firm on their first step forward. "Ce n'est que le premier pas qui coute."

Money ruled cheaper to-day than ever, and notwithstanding the month's liquidation, which always called for some little movement. First class pagarés were done as low as 4½ per cent, which is about the lowest price for money in this market for very many years One sees at the live-stock auctions going on at the various country fairs and at the marts in town, how flush everyone seems to be with money. The auctioneers are getting better prices for rams and bulls than even the estancieros outside. We saw young 'toritos' sold the other day in town from $200 to $250 m/n each, when at any first-class estancia they can be bought at from $50 to $100 each. Money on Emprestito bonds was lent to-day for 30 days at 5½ per cent. But, for the outside people money is still very dear, and only obtained at the Banco de la Nacion, or on retroventa. What has flushed the money market so much is the pause in all gold speculation: nobody borrows paper money to-day to buy gold, as in former years, and the legitimate business demand for money is altogether too small at present for the supply. In another month, when the new wools begin to arrive, there will be a more active business demand for money, but some of our private banks are for the moment fairly congested with paper money.

Mr. George Evans of Mendoza, National Inspector of Railways, has forwarded to the Railway Office a petition from the workmen of the Transandine Railway, who have not been paid their wages and are in a state of the greatest destitution. We hope the Railway Department will attend to this petition, and our countryman, Mr. Evans, merits the best praise for using his influence to try and get these poor people paid.

There is a great row in Montevideo, caused by the Mortgage Bank foreclosing properties on which the National Bank holds a second mortgage, and the Government has notified the Mortgage Bank to stop all such auctions, but the difficulty is that the properties, owing to the tremendous crisis down there, are not even good for the first mortgage, and hence the second mortgage virtually amounts to nothing if the properties are brought to the hammer; ergo, all Mortgage Bank auctions in the Banda Oriental must now be stopped.

Notwithstanding the crisis we notice they are colonizing in the Gran Chaco just as fast as ever. The government has just named Don Narcisso Barrilari, who is an agrimensor, to survey 80,000 hectares to be delivered to A. W. Brown & Co. for the establishment of a new colony; and parties who have come down from the Gran Chaco assure us that all the colonists up there are thriving and doing well, and that few people in Buenos Ayres have any idea of the great extent of land in the Chaco now under cultivation.

We regret to announce the sale, by judicial auction, of the Buenos Ayres Model Dairy Company, which was started but a few years ago with the brightest auspices. The judge has named Mr. Simon Pietre as auctioneer to sell the assets of the company.

Holders of Provincial Cedulas can from to-morrow till the 15th call at the Provincial Bank and collect bonos for their coupons, which will be a convenience and save them from going out to La Plata; and parties owing the Mortgage Bank can also pay the service on their mortgage in the same office, provided the Cedulas are registered there.

Bonos of the La Plata Mortgage Bank closed to-day at 16.40. Cheques continued as usual.

This being settlement day there was no second ring. Gold closed outside at $53 20 to the ounce, sellers.

The Montevidean steamers arrive every morning now crowded with passengers who bring up their furniture with them and come to settle permanently in this city. Many who come up state that things are so monstrously dull in Montevideo that only those who have a fixed income or salary can pay their way. It is really extraordinary the depression in the Mount; not even the oldest resident remembers things so bad down there as at present. No doubt the removal of the coal trade has immensely contributed to reduce the trade of the place. Many people had put faith in the new loan, but now no one in Montevideo believes in it, and hence those who still have wherewith are moving to Buenos Ayres to start their shops and business here where there is always some stir and some movement.

It is rumoured in the market that the National Mortgage Bank will begin selling at auction next month one of the most valuable properties in this market, in connection with the affairs of a well-known joint-stock company. The land, it is said, has been mortgaged at the rate of 8$ Cedulas and 2$ cash, on account of back service on the very mortgage. The land in question, when bought by the mortgagee, cost thirty dollars or more per square metre. The matter is talked of, but the details are kept under reserve.

Superior qualities of wheat were bought to-day at 9 40$ per 100 kilos for export to Brazil. Another important sale of wheat is spoken of at 9·30$.

An order of the Judge has been issued to sell the properties of a well-known Cordobese gentleman in the city and province of Cordoba: the properties in question are valued at 876,729$.

Mr. Nash of Carcarañá was welcomed on 'Change and warmly congratulated on the splendid sale he made of some of his horses; he returns to Santa Fé to-morrow. Mr. Curtis, who has arrived from the colonies, was also welcomed; he gives a doleful account of the locusts in the province of Santa Fe.

The Mercurio leaves Patagones on Sunday and is expected here on Wednesday.

The R.M.S Tamar is in Rio undergoing fumigation; she leaves there to-day for the River Plate.

The Sorata arrived at Montevideo to-day for the West Coast. The Magellan sailed from Coronel on the 28th and is due in Montevideo on 8th inst.

Exchange has at last gone over 48d. on London and continues rising. Francs 5.05¼; few takers and many drawers.

The statutes of the Joint Stock Company, Wilson, Sons and Company limited, were published to-day in the papers. This great coal company is now doing one of the largest coal businesses in the Plate.

There was a very large attendance to-day at the sale of the Luro two year olds in Palermo. Prices ran exceptionally high, averaging about $9 000, the top price being $18,500 paid for a fine son of Gay Hermit. The next best prices were $17,500 and $17,000, also paid for Gay Hermit's breed; and such was the demand that a gentleman who secured a horse for $17,000 was offered $20,000 for his colt five minutes afterwards and refused. Such splendid prices speak for themselves.

AN IMPORTANT AUCTION

which will attract the attention of intelligent people, and specially of amatéurs and collectionists.

The Valuable

COLLECTION OF ARMS

Belonging to Col. Reynaldo Parravicini will be sold by auction in my Rooms

566—PIEDAD—566

Guns of all the latest inventions, swords, knives, cannons, military spurs, Roman skulls, cuirasses, foils, military bonnets of all epochs, antiquities, and a host of very valuable military objects. All Buenos Ayres has seen and inspected the valuable collection of the late Colonel, and all praise, is unnecessary in this case. Suffice it to say that this collection has cost a fortune, and many years to form and complete it as it is to-day, with antiquities of various epochs.

This collection will be sold by auction in my rooms

566 — PIEDAD — 566

On Friday 7th of October

at 7.45 sharp in the evening

Catalogues with details will be supplied from Tuesday 4th on. On exhibition day and evening from Tuesday 4th.

All the different pieces and objects will be numbered, and sold in accordance with the Catalogue.

CHARLES OLMI

N.B. All the valuable furniture belongs to two families leaving the country.

Dining in the "House of Commons" in bygone days

Sir Robert Peel, dined frequently at the House of Commons. The catering at that time was in the hands of Bellamy. There was a great difference, says a writer in 'Blackwood' between the dinner arrangements at that time an the present. Then, members dined in the kitchen, and the dinner was cooked before them. There was little besides beefsteaks and mutton chops, but they were grilled at a roaring fire, and never were mutton chops better served. Now, there is elaborate menu of entrees and joints; but the change is not for the better, and the old members regret the simple cuisine of forty years since.

What would they have thought of the new innovation of ladies dining within the sacred precincts? Never was change greater than this, except in the smoking arrangements. Formerly, the only place for smoking was Gossett's room. Captain Gossett was Sergeant-at-Arms, and no one more popular ever filled the post. He was given two rooms, and one of these he invited his friends to smoke in. There were the pleasant reunions. Within these walls no party feeling entered. Each of the invited brought his own cigars and whisky—that is, all who frequently enjoyed this society used to send a present of whisky and there was no light consumption of **Usher's Old vatted Glenlivet** and poteen.

On the occasion Mr. Gladstone was asked what be imagined was the consumption during the session. He put it at 3500 bottles, and he was right within half a dozen. I very much question whether the new smoking rooms ever will see such a genial society as the small retreat where the walls were covered with photographs of the visitors, and where the pleasant talk until 'Who goes home?" was heard, was only interrupted by the division bell.

PHOSPHATIC

BAKING POWDER

BARON LIEBIG, the world-renowned chemist said, "I have though a great series of experiments, satisfied myself of the purity and excellence of your preparation. The bread has no acid, is easily digested, and of the best taste. Aside from the conveniences this invaluable idea of yours has provided, I consider this invention as one of the most useful gifts which science has made to mankind! It is certain that the nutritive value of the flour will be increased 10 per cent by your invention, and the result is precisely the same as if the fertility of our wheatfields had been increased by that amount.

What a wonderful result is this!"

IMPORTANT

TO SHEEP-FARMERS!!!

THORNCLIFFE

SHEEP DIP

TRADE MARK

ACARICIDE.

We the undersigned, hereby bear testimony to having witnessed the dipping trials made with the above dip on two flocks of sheep badly infected with scab, at Mr. Patricio Ham's Estancia "Santa Margarita" (Capitan Sarmiento F. C. C. A.), on the dates of May 21st and June 13th 1892.

The dip was mixed in the proportions of one part of dip to forty parts of cold water.—The Sheep and lambs alike were passed through the bath, and we noted that not one single case of poisoning occurred, nor were the sheep uneasy afterwards, proving that the dip contains no poisonous or burning properties.— At the end of June we testify to having examined these sheep and found them **absolutely cured of scab with only once dipping.** We noticed also that they had improved remarkably in condition and that the wool shewed no signs of discolourment. We have every confidence in recommending the **"Thorncliffe Sheep Dip"** as one of the safest and most effective dips that has ever come under our notice.

A LOS HACENDADOS Y á nuestra clientela

Animados por el favor y la confianza que los hacendados y el publico en general dispensa a esta casa, obligandole mas va ta esfera de accion y deseando corresponder á sus exigencias, nos es grato comunicarle que desde la fecha hemos incorporado a nuestra casa de remates y comisiones las consignaciones de frutos del pais y cereales os que recibiremos a comision para vender en los mercados Central de Frutos, Constitucion y Once en las mismas condiciones que los demas consignatarios.

Semanalmente remitiremos a nuestros comitentes una revista de precios corrientes con fieles apreciaciones sobre el estado de la plaza.

Cuando los criadores o nuestros clientes lo pidan venderemos sus frutos en remate previo anuncio, lo que ofrecera la indiscutible ventaja de dar nombre y fama a los establecimientos productores, cuyos frutos con rarisimas excepciones se venden actualmente sin saberse en nuestra plaza y menos en Europa el establecimiento que los ha producido.

La venta en remate ofrece por otra parte en nuestro mercado mayores facilidades que en los del Havre, Londres y Amberes, porque aqui los compradores pueden apreciar mejor todo lo que compran, examinando el articulo sin enfardelar.

La distancia a que se encuentran nuestros mercados uno del otro y la circunstancia de hacerse los negocios simultaneamente en los tres, tiene el inconveniente de distribuir los compradores alejando la competencia, y el remate subsana esta dificultad, porque como se anuncia previamente, permite a los interesados congregarse a una hora fija en el mercado donde ha de efectuarse la venta, estimulando el exito de las operaciones la competencia de los licitadores.

Para vender frutos en remate, sera necesario que asi se nos ordene expresamente, de lo contrario venderemos a estilo de plaza.

Esperando merecer en este ramo la misma confianza que en las otras comisiones, nos es grato repetirnos sus atts. y S. S

Adolfo Bullrich y Cia.
